

# FarmSense AI - Crop Recommendation Report

AI-powered crop recommendation using soil data, weather data, and machine learning.

## Weather Information

|             |                  |
|-------------|------------------|
| City        | Bangalore        |
| Temperature | 25.04 °C         |
| Humidity    | 68 %             |
| Condition   | scattered clouds |
| Wind Speed  | 7.6 m/s          |

## Input Values

| Parameter  | Value    |
|------------|----------|
| Irrigation | yes      |
| Nitrogen   | 62.0     |
| Phosphorus | 49.0     |
| Potassium  | 65.0     |
| Rainfall   | 33.0     |
| Season     | Rabi     |
| Soil Type  | Alluvial |
| pH         | 5.4      |

## Top 3 Crop Recommendations

| Rank | Crop       | Confidence |
|------|------------|------------|
| 1    | watermelon | 100%       |
| 2    | banana     | 13.0%      |
| 3    | jute       | 13.0%      |

## Fertilizer Recommendation

- Nitrogen level is suitable.
- Phosphorus level is suitable.
- Potassium level is suitable.

## Model Performance

|               |             |
|---------------|-------------|
| Best Model    | Naive Bayes |
| Best F1 Score | 99.54%      |
